EDUCATION

Boston College, Morrissey College of Arts and Sciences – Bachelor of Science, Computer Science Chestnut Hill, MA

- Graduated date: May 2019
- Relevant Coursework: Computer Science I/II, Computer Organization, Logic and Computation, Computer Systems, Randomness and Computation, Artificial Intelligence, Algorithms, Data Mining, Distributed Systems, Principles of Programming Languages, Linear Algebra

EXPERIENCE

Adobe Inc., Platform Software Engineer New York, NY

Redesigned and standardized internal infrastructure. Aug 2019 – Present

- Modified internal infrastructure administrative and consumer pages to facilitate a quicker and simplified deployment process.
- Consumed and supported API construction to deliver company-wide standards.
- Formalized designs through Adobe XD and helped bring them to production on a full-stack scale using React, CSS, and Ruby on Rails.

Adobe Inc., Ethos Web Development Intern New York, NY

Optimized internal employee software. May 2018 – Aug 2018

- Streamlined deployment processes by redesigning administration pages to make them more digestible.
- Utilized software such as Adobe XD and Sketch to design prototypes and transitioned the designs to a large-scale project using HTML, CSS, JavaScript, and JQuery.

BC University Communications, Web Development Assistant Chestnut Hill, MA

Improved Boston College's course, major/minor and faculty websites. Sep 2017 – May 2018

- Upgraded existing websites under the Boston College domain by implementing previously designed modules through various Adobe applications.

PROJECTS

Hurt Alert

A web and mobile application to allow students to report suspicious activity within Berkeley, CA.

- Designed graphics for the application and helped integrate the User Interface.
- Winner of the Code4Impact award at AngelHack Silicon Valley.
- <https://github.com/kunaljaydesai/CrimeApp>

SKILLS

Software: Adobe XD, Photoshop, Sketch, Git

Programming: JavaScript (React, JQuery), HTML/CSS (SCSS, Bootstrap), Ruby on Rails, Python

LEADERSHIP

Boston College Asian Caucus, Director of Freshman Formation Program May 2018 – May 2019

- Manage and direct weekly meetings consisting of over 20 freshmen which aim to discuss topics that pertain to race, socioeconomic status, and gender.

Boston College Computer Science Society, Experience Coordinator, Sponsorship Coordinator Sep 2017 – Sep 2018

- Created and organized schedule for Boston College's annual hackathon (HackTheHeights) which participants follow.
- Recruited leaders for workshops, speakers for talks occurring throughout the hackathon, and sponsors for the event.
