EDUCATION

Bachelor of Science, Computer Science – Boston College – Chestnut Hill, MA
- Anticipated graduation date: May 2019
- Relevant Coursework: Computer Science I/II, Computer Organization, Logic and Computation, Computer Systems, Randomness and Computation, Artificial Intelligence, Algorithms, Data Mining

EXPERIENCE

Ethos Web Development Intern, Adobe Systems – New York, NY   May 2018 – Aug 2018
Optimized internal employee software.
- Streamlined deployment processes by redesigning administration pages to make them more digestible.
- Utilized softwares such as Adobe XD and Sketch to design prototypes and transitioned the designs to a large-scale project with HTML, CSS, JavaScript, and JQuery.

Web Dev. Assistant, BC University Communications – Chestnut Hill, MA   Sep 2017 – Present
Improved Boston College's course, major/minor and faculty websites.
- Upgraded existing websites under Boston College domain by implementing previously designed modules through various Adobe applications.

Design / Development Intern, FOCUS – Santa Monica, CA   May 2017 – Aug 2017
Launched and oversaw maintenance of website highlighting company's iOS application.
- Expanded network of consumers by engineering a website from scratch that showcases the mobile application.
- Designed prototypes using Sketch and Photoshop and implemented these into the application.

PROJECTS

Hurt Alert
A web and mobile application to allow students to report suspicious activity within Berkeley, CA.
- Designed graphics for the application and helped integrate the User Interface.
- Winner of the Code4Impact award at AngelHack Silicon Valley.
- https://github.com/kunaljaydesai/CrimeApp

Coverd
A landing page designed for the Coverd product, which looks to revolutionize the insurance industry by providing consumers with the most accessible and affordable insurance.
- Implemented HTML, CSS, Bootstrap and Materialize to design the landing page and utilized the Flask framework for the backend.

SKILLS

Software: Sketch, Photoshop, Adobe XD, Git
Programming: Python, JavaScript, HTML/CSS, Java

LEADERSHIP

Experience Coordinator, Sponsorship Coordinator // Boston College Computer Science Society   Sep 2017 – Present
- Create and organize schedule for Boston College's annual hackathon (HackTheHeights) which participants will follow on day of.
- Recruit leaders for workshops and speakers for talks that occur throughout the hackathon as well as sponsors for the event.

Director of Freshman Formation Program // Boston College Asian Caucus   May 2018 – Present
